

# DSA

## Trigger box

- ✓ Provides both power and synchronization to all cameras.
- ✓ Trigger signal reconditioning.
- ✓ Works with GigE Vision, 5, 10, 25 and 100 GigE, USB3, Camera Link and CXP.
- ✓ No need for PTP compliant network infrastructure.
- ✓ Works with any camera that includes external trigger input.
- ✓ Can trigger up to 8 cameras simultaneously.
- ✓ Cable length up to 50 meters.

- ✓ Norpix provides three major digital video recording software solutions: Streampix for single or multiple camera recording and a general-purpose software package.
- ✓ Troublepix for high-speed troubleshooting on production lines requiring integrated pre-post capture.
- ✓ StreamTouch with an easy to use GUI for touch screen monitors.
- ✓ NorPix software supports over 200 different brands of machine vision and scientific cameras including IR thermal cameras (Flir A Series, HikVision).
- ✓ NorPix uses the original camera manufacturer API to provide maximum performance and guarantee no frame drops.
